Marketing operations professional with daily, hands-on CRM experience and intermediate SQL. At BBVA Argentina I run operations on the bank's CRM and internal systems every day, resolving over 50 customer queries per week where a single recording error reaches a real customer immediately, the same error tolerance a campaign running across dozens of countries requires. I am completing the Google Data Analytics Professional Certificate (SQL/BigQuery, module 5) and practice SQL independently against marketing and CRM datasets (customers, campaigns, purchases), the same kind of country, currency, date and category structure this role's communications "vertical" needs. My spreadsheet work has stayed at a general level: I have not yet built advanced Excel formulas such as XLOOKUP or INDEX/MATCH on inherited templates, a gap I would close quickly while bringing CRM operations discipline, SQL and precise written communication from day one.

Core Competencies

- **CRM & marketing operations:** daily hands-on operation of the bank's CRM and internal systems, resolving 50+ customer queries per week with retention and accuracy as the explicit goal.
- **SQL (intermediate):** BigQuery / Google Standard SQL via the Google Data Analytics Professional Certificate (module 5), plus self-directed practice writing queries against marketing and CRM datasets (customers, campaigns, purchases) in SQLite. Also built and deployed, with Claude Code, an ecommerce analytics dashboard that draws on a public BigQuery dataset (fase1-ga4-dashboard.vercel.app), reinforcing the same country, date and category data structures.
- **Spreadsheets and data organisation** (building toward advanced): comfortable structuring and reading data in Google Sheets/Excel; have not yet worked with XLOOKUP, INDEX/MATCH or validation rules on inherited templates, disclosed honestly rather than implied.
- **Attention to detail under pressure:** resolves 50+ customer queries per week in a live banking environment, handling unpredictable queries and peak-hour volume without letting accuracy slip.
- **Written communication & stakeholder coordination:** Diploma in Oral Communication and Rhetoric (UTN); coordinates daily with internal bank teams and systems, and with brand stakeholders when planning content campaigns.
- **Languages:** Spanish (native), English (advanced).

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records accurate for retention and follow-up actions.
 - Resolve over 50 customer queries per week, handling unpredictable queries and peak-hour volume while prioritising accuracy, an "obsession with detail" standard where one mistake reaches the customer immediately.
 - Guide customers' migration to the mobile app and online banking: over 100 customers oriented per week on digital-channel adoption.
- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Managed social media for local brands across three consecutive summer seasons (2023, 2024, 2025), coordinating content and timing directly with brand stakeholders.
 - Built monthly content calendars and planned, scheduled and published 15 posts per month on Instagram and Facebook via Meta Business Suite.
 - Designed visual content in Canva aligned to each brand's identity.

- **Inmobiliatica.com** **Mar del Plata, Argentina**
2023-2025
 - *Digital Marketing Assistant*
 - Supported the digital communications strategy of an online real-estate platform.
 - Produced conversion-oriented content: posts designed to generate enquiries, not just likes.

Education

- **Universidad CAECE** **Mar del Plata, Argentina**
2024-2027
 - *Bachelor's Degree in Marketing*
In progress, expected completion Dec 2027.
- **Universidad Tecnológica Nacional (UTN)** **Argentina**
Aug 2025-Dec 2025
 - *Diploma in Oral Communication and Rhetoric*

Certifications

- **Google Data Analytics Professional Certificate** (in progress, module 5) – SQL (BigQuery), spreadsheets, data visualisation and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.
