CRM operations profile built on daily, hands-on data-integrity work inside a regulated financial services institution. At BBVA Argentina I run day-to-day operations on the bank's CRM and internal systems, keeping customer records and interaction history accurate while resolving over 50 queries a week, because a bank cannot absorb a stale or duplicated record any more than a membership pipeline can. I have also designed and shipped two independent analytics tools with Claude Code, including a dashboard that turns raw BigQuery data into KPI tracking and an AI-generated daily summary, so I think about CRM data as the input to reporting someone downstream has to trust, not only as records to keep tidy. I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, data cleaning, visualisation) and studying Marketing at Universidad CAECE. I have not yet administered HubSpot specifically; I would be building that platform fluency on top of an existing, daily habit of CRM hygiene and process ownership.

Core Competencies

- **CRM administration & data integrity:** daily ownership of records, contact data and interaction history inside a corporate CRM and internal banking systems, proactively catching duplicate or inconsistent entries before they become someone else's problem.
- **Funnel reporting & dashboards:** designed and shipped an analytics dashboard (Next.js, BigQuery/GA4, Recharts) that tracks KPIs and trends and generates a daily AI executive summary: the same instinct this role needs for pipeline-health visibility, built independently on ecommerce funnel data rather than HubSpot deal data.
- **Data cleaning & segmentation:** spreadsheet-based cleaning, deduplication and segmentation of records, practiced through the Google Data Analytics curriculum; a muscle also exercised at work in the day-to-day discipline of keeping customer data clean and non-duplicated.
- **Spreadsheets & SQL:** Google Sheets and Excel (pivot tables, lookups, filtering, formulas) plus SQL queries for pulling and cross-checking records against defined criteria.
- **High-volume, high-accuracy execution:** over 100 customers guided per week and over 50 queries resolved weekly without losing precision in what gets logged, an operational rhythm suited to owning a pipeline where nothing falls through the cracks.
- **Cross-functional communication:** translating between customers, branch teams and internal systems; Diploma in Oral Communication and Rhetoric (UTN) and advanced written English for clear, async-first coordination.
- **Tools:** CRM and internal banking systems, Google Sheets / Excel, SQL, Claude Code, Next.js, BigQuery. No hands-on HubSpot experience to date.

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records, contact details and interaction history accurate and correctly classified.
 - Resolve over 50 customer queries per week, logging each case in the CRM so the next team member picks it up from complete and reliable data.
 - Guide the migration of customers to the mobile app and online banking: over 100 customers oriented per week on digital-channel adoption.
 - Work to fixed operational criteria and compliance rules, prioritising retention and customer experience over one-off transactions.
- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Managed social media for local brands across three consecutive summer seasons (2023, 2024, 2025).
 - Planned and published 15 posts per month on Instagram and Facebook (Meta Business Suite), on a fixed monthly calendar.
 - Produced visual content in Canva and wrote copy aligned to each brand's audience.

- **Inmobiliatica.com** **Mar del Plata, Argentina**
2023-2025
 - *Digital Marketing Assistant*
 - Supported the marketing team of an online real-estate platform with content and digital communications.
 - Produced conversion-oriented posts designed to generate enquiries rather than passive reach.

Independent Projects

- **Marketing Analytics Dashboard** (Claude Code) – ecommerce analytics dashboard on real BigQuery (GA4) data, with a daily AI-generated executive summary. Next.js, BigQuery, Gemini API, Redis, Recharts. [Live](#).
- **AI Marketing Agency** (Claude Code) – production platform with 5 active tools (copy generator, campaign-plan generator, competitor auditor, SEO optimizer, buyer-persona generator), all built on the Gemini API. Next.js, TypeScript, Tailwind, Upstash Redis, Vercel. [Live](#).

Education

- **Universidad CAECE** **Mar del Plata, Argentina**
2024-2027
 - *Bachelor's Degree in Marketing*
In progress, expected completion Dec 2027.
- **Universidad Tecnológica Nacional (UTN)** **Argentina**
2025
 - *Diploma in Oral Communication and Rhetoric*
Aug 2025 - Dec 2025.

Certifications

- **Google Data Analytics Professional Certificate** (in progress) – SQL, spreadsheets, data cleaning, visualisation and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.
