Marketing profile built on product adoption, retention and decisions made with evidence rather than intuition. At BBVA Argentina I drive adoption of the bank's own digital product, guiding over 100 customers a week onto the app and online banking and resolving over 50 queries a week with a retention and customer-experience focus. That is the adoption-and-engagement loop a rewards program runs on. I use Claude daily as a working tool and built an analytics dashboard over a real BigQuery (GA4) ecommerce dataset with Claude Code, reporting KPIs, trends and audience segments. I am on module 5 of the Google Data Analytics Professional Certificate (SQL on BigQuery) and studying Marketing at Universidad CAECE. No product marketing title yet: the banking CRM I operate daily and the Klaviyo flows I am actively learning are the closest adjacency I can offer honestly.

Core Competencies

- **Product adoption & engagement**: I drive adoption of BBVA's mobile app and online banking with over 100 customers guided per week, then handle the friction they hit afterwards. Onboard, keep active, remove the blocker, feed what I learned into the next person. That is the loop an Earn and rewards product runs on.
- **Behavioral data & analytical thinking**: SQL on BigQuery, spreadsheets and visualization through the Google Data Analytics Professional Certificate (module 5); built a dashboard that reads a real GA4 ecommerce dataset and reports KPIs, trends and audience breakdowns.
- **AI tools (Claude)**: Claude Code is part of my daily working method. I designed, built and shipped three live products with it, including that GA4 dashboard and a five-tool marketing platform on the Gemini API, so AI is already how I research, draft and test rather than something I am curious about from a distance.
- **Lifecycle messaging & CRM**: daily operations on a banking CRM with retention as the stated priority; Klaviyo flows and email-marketing fundamentals in active, self-directed learning, which is the closest adjacency I have to a Braze-style lifecycle stack.
- **Audience-specific messaging & copy**: 15 posts a month on Instagram and Facebook for local brands across three summer seasons, each message written for that brand's specific audience, plus conversion-oriented copy for an online real-estate platform. Diploma in Oral Communication and Rhetoric (UTN).
- **Qualitative feedback at the source**: over 50 customer queries a week, which is where friction points and objections surface before a survey catches them; I feed the recurring ones back into how the next customer is onboarded. I have not yet run a formal user research or NPS program.
- **Cross-functional coordination**: translating daily between customers, branch teams and internal systems inside fixed compliance criteria, the kind of constraint Product, Legal and Compliance place on any consumer feature a product marketing team ships.
- **Financial services context & tools**: currently working inside a bank (BBVA Argentina) with regulated financial products. Banking rather than fintech, but the same regulated product and the same questions from the customers using it. Claude Code, banking CRM, SQL / BigQuery, Google Sheets / Excel, Meta Business Suite, Canva, Next.js, Vercel.

Professional Experience

- **BBVA Argentina** — **Mar del Plata, Argentina**
  Gestor Express (Customer Adviser) — *2026-Present*
  - Drive adoption of the bank's digital product: over 100 customers per week guided onto the mobile app and online banking, from first use through to independent use.
  - Resolve over 50 customer queries per week, prioritizing retention and customer experience over one-off transactions, and carry the friction patterns I hear back into how the next customer is onboarded.
  - Run daily operations on the bank's CRM and internal systems, keeping customer records and interaction history accurate and correctly classified.
  - Work to fixed operational and compliance criteria inside a regulated financial institution.

- **Mar del Plata Digital** — **Mar del Plata, Argentina**
  Community Manager — *2023-2025*
  - Owned social media for local brands across three consecutive summer seasons (2023, 2024, 2025).
  - Planned and published 15 posts per month on Instagram and Facebook (Meta Business Suite) against a fixed monthly calendar.
  - Wrote the copy and produced the visuals in Canva, positioning each message for that brand's specific audience.

- **Inmobiliatica.com** — **Mar del Plata, Argentina**
  Digital Marketing Assistant — *2023-2025*
  - Supported the marketing team of an online real-estate platform with content and digital communications.
  - Produced conversion-oriented posts written to generate inquiries rather than passive reach.

Independent Projects

- **AI Marketing Dashboard** (Claude Code) – ecommerce analytics dashboard on a real BigQuery (GA4) dataset: KPIs, trend, product and audience views, plus a daily executive summary generated with the Gemini API. Next.js, BigQuery, Redis, Recharts. Live.
- **AI Marketing Agency** (Claude Code) – production platform with five active tools (copy generator, campaign-plan generator, competitor auditor, SEO optimizer, buyer-persona generator) on the Gemini API. Design principle: nothing verifiable is ever invented, every checkable fact is computed server-side instead of asked of the model. Next.js, TypeScript, Tailwind, Upstash Redis, Vercel. Live.
- **Vidriera** (Claude Code) – marketing news portal organized into six editorial categories. Astro, Tailwind CSS, TypeScript. Live.

Education

- **Universidad CAECE** — **Mar del Plata, Argentina**
  Bachelor's Degree in Marketing — *2024-2027*
  In progress, expected completion Dec 2027.

- **Universidad Tecnológica Nacional (UTN)** — **Argentina**
  Diploma in Oral Communication and Rhetoric — *Aug 2025 - Dec 2025*

Certifications

- **Google Data Analytics Professional Certificate** (in progress, module 5) – SQL on BigQuery, spreadsheets, visualization and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.
