Marketing professional focused on customer retention and CRM, building toward email and lifecycle marketing. At BBVA I run daily operations on the bank's CRM and guide over 100 customers per week through the adoption of digital channels, prioritising retention and customer experience over one-off transactions. Three summer seasons managing content and social media for local brands add hands-on, conversion-oriented copywriting. I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) to ground segmentation and campaign decisions in evidence, and I self-study Klaviyo flows, email deliverability and HTML/CSS to move into retention email programs. I am honest that this is a Manager-level posting and I am earlier in my career; what I offer is a genuine retention/CRM foundation, fast learning and consistent execution.

- **Email design & technical:** learning HTML/CSS for responsive email design and basic personalisation; use **Claude Code** as an AI pair-programmer to practise SQL and HTML/CSS.
- **Copywriting & content:** conversion-oriented copy and content calendars for brand campaigns, coordinated with visual content in Canva.
