Community Manager and content creator with hands-on experience running social accounts for brands across Instagram and Facebook. I plan monthly content calendars, design pieces in Canva, and write captions built to earn saves and conversations, not just reach. Comfortable owning DMs and community engagement end to end, with advanced English for content in a founder's voice. I move fast on rough ideas, learn tools independently, and use AI assistants such as Claude Code to draft and iterate on copy and content angles quickly. Growing my hands-on short-form video editing as the natural next step from the content work I already do.
