Dear RemotelyCareer Hiring Team,

I am writing about the Lifecycle & Retention Marketing Manager role for your client's jewelry brand. Owning the customer journey after acquisition, first purchase through repeat purchase and advocacy, is exactly the work that draws me: at BBVA I run daily operations on the bank's CRM with a clear focus on retention and long-term customer relationships, and I want to bring that same ownership, plus a habit of testing assumptions against data rather than instinct, to a lifecycle program built on real purchase behavior.

Here is how my background maps to what this role needs:

- Retention operations: I manage daily CRM operations and orient over 100 customers per week through digital-channel adoption, prioritising retention and customer experience over one-off transactions.
- Copy, calendar and QA: across three seasons I planned content calendars, wrote conversion-oriented copy and QA'd every publish across Instagram and Facebook, the same discipline a flow or campaign needs before it goes live.
- Reporting without hiding behind attribution: I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) and work comfortably in spreadsheets to read metrics and explain performance honestly.

I will be direct about fit. I do not have the 4+ years of dedicated lifecycle, CRM or ecommerce retention experience this role asks for, my CRM and retention background so far is in banking rather than DTC or jewelry, and I have no professional Klaviyo or SMS experience yet. I am actively learning Klaviyo on my own right now, working through flows and email fundamentals, and I would come in ready to keep closing that gap quickly rather than pretending it is already closed. What I bring today is real retention and customer-data experience, disciplined copywriting and QA habits, and a fast, self-directed learning curve across new tools and platforms.

I am strong on retention thinking, copy and data discipline, and I am closing the Klaviyo gap in real time. I would welcome the chance to make the case in more detail.

I look forward to hearing from you.

Kind regards,

Bianca Dondero
