Marketing professional focused on customer retention and CRM, with a data-driven, execution-first way of working. At BBVA I run daily operations on the bank's CRM and communicate directly with over 100 customers per week, prioritising retention and long-term relationships. I am actively learning Klaviyo on my own right now, working through flows and email-marketing fundamentals on the platform, and I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) to tie retention decisions to metrics such as repeat rate and engagement rather than intuition. Across three summer seasons I planned content calendars, wrote conversion-oriented copy and QA'd every publish before it went live.

Core Competencies

- **Retention & CRM:** daily CRM operations focused on retention and customer experience; strong interest in lifecycle flows (welcome, abandonment, post-purchase, win-back).
- **Klaviyo:** actively learning the platform on my own, currently working through flows and email-marketing fundamentals; not yet hands-on in a production account.
- **Reporting & metrics:** comfortable in Excel / Google Sheets, compiling and explaining engagement, conversion and retention metrics; Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) in progress, directly relevant to reading LTV and repeat-rate style reporting. Built and deployed an ecommerce analytics dashboard with Claude Code (BigQuery/GA4 data, AI-generated daily executive summary): fase1-ga4-dashboard.vercel.app.
- **Detail & QA:** catch errors before a publish goes live, not after; keep every piece of content on-brand, on-time and error-free.
- **Campaign calendar & copy:** content-calendar planning and conversion-oriented copywriting across Instagram and Facebook, briefing and QA'ing visual content in Canva.
- **Tools:** CRM systems, Meta Business Suite, Canva, Google Sheets / Excel, SQL; building Klaviyo skills through self-directed practice.
