Marketing professional who builds AI into the work instead of proposing it: two live products shipped end to end with Claude Code, including an ecommerce analytics dashboard that runs on real BigQuery GA4 data and writes its own daily executive summary. Today I run daily operations inside a live CRM at BBVA Argentina, where retention and customer experience are the explicit priority, while self-directing my way through Klaviyo to build hands-on lifecycle and flow skills, closing gaps the same way I built these two products: by building, not waiting.

Core Competencies

- **Building AI into marketing work (Claude Code):** designed, built and shipped two live AI-powered products end to end, evidence that I build with AI myself rather than assigning it or proposing it in a deck.
- **CRM & lifecycle marketing (Klaviyo, in active self-directed learning):** daily hands-on CRM operations at BBVA Argentina with retention as the explicit priority; building Klaviyo flow, segmentation and email fundamentals through ongoing self-directed study.
- **Quality control & attention to detail:** pre-publication checks on copy, creative and links as a Community Manager for multiple brands, plus bank-grade accuracy discipline on customer data and operations where a mistake does not get a second chance.
- **Analytics & reporting (GA4, BigQuery, SQL):** built an ecommerce analytics dashboard on real BigQuery GA4 data with an AI-generated daily executive summary; completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation).
- **Brand-consistent campaign production:** planned, produced and scheduled campaigns for several local brands across three seasons, holding each account to its own brand guidelines and deployment dates.
- **Tools:** Claude Code, Gemini API, Next.js, BigQuery, Upstash Redis, Vercel, Canva, Meta Business Suite, enterprise banking CRM, SQL.

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records and interaction histories accurate ahead of any outreach.
 - Resolve over 50 customer queries per week with retention and customer experience as the explicit priority, catching issues before they escalate.
 - Guide over 100 customers per week through onboarding onto digital channels.
 - Work to bank-grade accuracy standards on customer data and operations, where an error is not recoverable after the fact.
- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Owned campaign production for several local brands across three consecutive summer seasons (2023, 2024, 2025), each held to its own brand guidelines.
 - Planned, built and scheduled 15 posts per month per account on Instagram and Facebook (Meta Business Suite), never missing a deployment date.
 - Reviewed copy, creative and links before every post went out, and used engagement results to decide what to repeat and what to cut.

- **Inmobiliatica.com** **Mar del Plata, Argentina**
2023-2025
 - *Digital Marketing Assistant*
 - Supported the digital communications strategy of an online real-estate platform, coordinating deliverables with the marketing team.
 - Produced conversion-oriented content for real estate, a long-cycle, considered-purchase category, built to generate enquiries rather than just likes, and tracked which formats actually converted.

Independent Projects (Built & Shipped with Claude Code)

- **AI Marketing Agency** – live product: fase1-plataforma.vercel.app. Generates three on-brand copy variants from a five-question brand profile using the Gemini API. Next.js, TypeScript, Tailwind, Upstash Redis, Vercel.
- **AI Marketing Dashboard** – live product: fase1-ga4-dashboard.vercel.app. Pulls real ecommerce data from a public BigQuery GA4 dataset and writes its own daily AI executive summary with Gemini, cached in Redis. Next.js, BigQuery, Gemini API, Redis, Recharts.
