Junior marketing professional with daily, hands-on CRM experience and an active, self-directed path into email marketing and marketing automation. At BBVA Argentina I run operations on the bank's CRM every day and resolve over 50 customer queries per week with a strict focus on accuracy and retention. I am building hands-on Klaviyo skills (flows and email marketing fundamentals) and practising SQL to segment and analyse data, backed by the Google Data Analytics Professional Certificate I am completing. I have also built AI-driven marketing automation tools of my own with Claude Code, an adjacent angle on automation that complements, rather than replaces, traditional email/CRM execution. I am upfront about the central gap: I have not yet managed paid Google Ads or Meta Ads campaigns professionally. I am looking for a junior paid media and automation role where I can build hands-on campaign skills quickly while contributing CRM, data and automation strengths from day one.

Core Competencies

- **CRM & customer data:** daily, hands-on CRM operations at BBVA Argentina, resolving customer requests and keeping records accurate, a direct match to this role's CRM platform requirement.
- **Email marketing & automation (in progress):** building hands-on Klaviyo skills (flows, email marketing fundamentals) through active, self-directed learning, a direct match to the role's Klaviyo nice-to-have, though not yet professional experience.
- **AI-driven marketing automation:** built and shipped a marketing-automation platform with Claude Code (generative AI), including a campaign-plan generator and an ad-copy generator, an adjacent angle on "automation" built with generative AI rather than traditional email-automation tooling.
- **Data & segmentation:** SQL (intermediate, via the Google Data Analytics Professional Certificate) and spreadsheet analysis to segment audiences, build reports and read campaign KPIs with evidence, not intuition.
- **Digital content & organic social:** planned and published content across Instagram and Facebook (Meta Business Suite) for multiple local brands across three seasons; organic content management, not paid campaign management.
- **Tools:** CRM systems, Klaviyo (learning), SQL, Google Workspace (Sheets) / Excel, Meta Business Suite, Canva, Claude Code, Gemini API.

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records and interactions accurate and error-free.
