Dear Assurant hiring team,

I am applying for the Email Marketing Specialist role in the Email Center of Excellence. Lifecycle and retention marketing is the work I have deliberately built my profile around, and a team executing onboarding, engagement, retention, loyalty and reactivation programs across multiple brands is exactly where I want to do it.

Assurant's mission starts with protection and goes on to experience. That order matches how I work today at BBVA Argentina, where I run daily operations on the bank's CRM and every interaction is judged by whether the customer stays and has a better experience. I want to bring that retention-first instinct to your customer communications.

Here is what I can take off your team's plate:

- Lifecycle execution and CRM data: daily CRM work on onboarding, engagement and retention, resolving over 50 queries a week and onboarding over 100 customers a week onto digital channels. I read audience segmentation and customer communication strategy from the data side, not just the brief.
- Campaign production and deployment: as Community Manager I planned, built and scheduled 15 posts per month per account for several brands over three seasons, sourcing assets, holding brand standards and never missing a deployment date.
- Quality assurance: content validation and link and copy checks before anything goes live, plus the accuracy discipline banking demands.
- Reporting: completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation), so I can report on open rate, CTR and conversion and turn A/B tests into recommendations.

One honest gap: my platform experience is an enterprise banking CRM, not Salesforce Marketing Cloud or Knack, so I do not hold the SFMC Specialist certification yet and would start that path immediately.

One logistical question: the posting lists Buenos Aires and I am based in Mar del Plata, so could you confirm whether the role admits a remote or hybrid arrangement? I am fully set up to work that way, on Buenos Aires hours.

I look forward to hearing from you.

Kind regards,

Bianca Dondero
