Marketing professional focused on email marketing, CRM and lifecycle marketing, with daily hands-on experience running customer operations in a banking CRM. At BBVA Argentina I work inside the CRM every day, handling more than 50 customer queries per week with retention and customer experience as the priority, and guiding over 100 customers per week through onboarding onto the bank's digital channels. Earlier, as Community Manager and digital marketing assistant, I planned, produced and scheduled content calendars for multiple brands, keeping brand standards, deadlines and publishing accuracy under control across three consecutive seasons. I work with the detail orientation that campaign execution demands: checking content, links and audience selections before anything goes out. I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, data visualisation) to report on campaign performance with evidence rather than intuition.

Core Competencies

- **Email marketing & lifecycle programs:** career focus on email marketing, CRM and lifecycle programs across onboarding, engagement, retention, loyalty and reactivation; studying email best practices, audience segmentation and testing methodology alongside my Marketing degree.
- **Retention & customer experience:** daily CRM work supporting the onboarding, engagement and retention of banking customers, with customer communication strategies judged by whether the customer stays.
- **CRM data & audience segmentation:** hands-on management of customer records, interactions and segments in an enterprise banking CRM, keeping data accurate and usable for follow-up.
- **Campaign production & scheduling:** planning, producing and scheduling monthly content calendars for several brands (15 posts per month per account) with fixed deadlines and approved brand assets.
- **Quality assurance & attention to detail:** content validation, proofreading and pre-publication checks; in banking, verifying customer data and operations where an error is not recoverable.
- **Stakeholder coordination:** gathering requirements from brand owners and internal teams, agreeing timelines and approvals, and communicating status proactively.
- **Reporting & analytics:** SQL, spreadsheets, data visualisation and analysis applied to marketing metrics such as reach, engagement, open rate, CTR and conversion (Google Data Analytics, in progress).
- **Tools:** enterprise banking CRM, Meta Business Suite, Canva, Google Sheets / Excel, SQL, Claude Code (AI assistant used to draft, review and iterate on content and data work).

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records, segments and interaction histories accurate and up to date.
 - Resolve over 50 customer queries per week with retention and customer experience as the explicit priority, rather than one-off transactions.
 - Support customer onboarding onto digital channels: over 100 customers per week guided through activating and adopting the mobile app and online banking.
 - Work to bank-grade accuracy standards, double-checking customer data and operations before execution and escalating risks early.

- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Owned campaign production for local brands across three consecutive summer seasons (2023, 2024, 2025), managing several accounts in parallel.
 - Planned, built and scheduled 15 posts per month per account on Instagram and Facebook (Meta Business Suite), meeting deployment dates without slippage.
 - Sourced and organised campaign assets and produced visual content in Canva, keeping every piece aligned with each brand's standards.
 - Reviewed copy, assets and links before publication, and tested content angles against reach and engagement results to decide what to repeat.
- **Inmobiliatica.com** **Mar del Plata, Argentina**
Digital Marketing Assistant *2023-2025*
 - Supported the digital communications strategy of an online real-estate platform, coordinating deliverables with the marketing team.
 - Produced conversion-oriented content: posts designed to generate enquiries, not just likes, and tracked which formats performed.
