Marketing and sales support profile built on two halves that fit this role: content execution and funnel operations. As Community Manager I planned, wrote and scheduled social content for local brands across three consecutive summer seasons, publishing 15 posts per month and writing conversion-oriented copy meant to generate enquiries, not just likes. At BBVA I run daily CRM operations, keeping customer records and follow-ups clean and current while resolving over 50 queries a week. I write well in both Spanish and English, I like calendars and systems where every post and every lead has a known status, and I am completing the Google Data Analytics Professional Certificate so reporting is based on evidence rather than intuition. Fully remote and able to work US business hours.

Core Competencies

- **Content planning & scheduling:** built monthly content calendars and published organic social content on schedule through Meta Business Suite, keeping branding and messaging consistent across accounts.
- **Writing & copy:** conversion-oriented copy for brand campaigns and customer communications; formal training in oral communication and rhetoric (UTN diploma). Written English at advanced level.
- **CRM & data hygiene:** daily operations on the bank's CRM, keeping records, interactions and follow-ups accurate and current; retention, lifecycle and email marketing are my declared area of focus within the Marketing degree.
- **Follow-up & pipeline discipline:** over 50 customer cases per week tracked to resolution, nothing left to go cold; comfortable owning reminders, next steps and scheduling.
- **Lists, research & reporting:** spreadsheets and SQL used to build, clean and segment data sets, plus marketing metrics such as reach, engagement, open rate and click-through (Google Data Analytics, in progress).
- **Tools:** Meta Business Suite, Canva, CRM systems, Google Sheets / Excel, SQL, Claude Code for drafting and iterating on content faster.
