Digital marketing and data profile looking to move into paid social production support. Three consecutive summer seasons as Community Manager gave me hands-on execution on Meta channels: planning calendars, building and scheduling content in Meta Business Suite, trafficking creative produced in Canva and reporting on how each post performed. At BBVA I run daily CRM operations and over 50 customer queries per week, so I am used to detail-heavy, deadline-driven production work where one wrong field breaks the process. I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, data visualisation), which is the analytical toolkit behind weekly and monthly performance reporting. I am based in Mar del Plata, where DEPT has an office, so the hybrid setup for this role fits me exactly.

Core Competencies

- **Social channel execution:** planning, building, scheduling and publishing content on Instagram and Facebook through Meta Business Suite, including creative trafficking and organised asset handoff.
- **Production support:** detail-oriented, checklist-driven execution under recurring deadlines; three summer seasons of consistent monthly content delivery and daily banking operations with zero-tolerance for data errors.
- **Reporting & data:** spreadsheets and Excel, SQL, data visualisation and analysis applied to marketing metrics such as reach, engagement, CTR and enquiries generated (Google Data Analytics Professional Certificate, in progress).
- **Conversion focus:** content designed to generate enquiries rather than likes, with results reviewed post-publication and angles adjusted for the next cycle.
- **Communication:** advanced English for daily work with teams abroad; UTN diploma in Oral Communication and Rhetoric; clear written follow-ups and meeting notes.
- **Tools:** Meta Business Suite (Instagram, Facebook), Canva, CRM systems, Google Sheets / Excel, SQL.

Professional Experience
