Social media and content marketer moving into influencer marketing. For three consecutive seasons I ran brand accounts on Instagram and Facebook end to end: content calendars, creative direction, copy, publishing and monthly performance reporting, coordinating directly with clients on messaging, deliverables and timelines. My social media work is organic and brand-side rather than creator-side, so I am building influencer and UGC experience from a strong adjacent base: I know how content performs on Instagram and TikTok, I write clear briefs and brand guidelines, and I keep partners on schedule. At BBVA I manage daily CRM operations and own more than 100 customer relationships per week, which is the same discipline outreach and partnership tracking demand. Completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) to read campaign performance with evidence, not intuition.

Core Competencies

- **Social media & content platforms:** hands-on management of brand accounts on Instagram and Facebook via Meta Business Suite; close follower of TikTok, Instagram and YouTube creator formats and social media trends.
- **Creative briefs & brand guidelines:** write content guidelines, campaign messaging and post-by-post creative direction so external collaborators produce work that matches the brand's voice.
- **Content review & feedback:** review content for quality, messaging and brand alignment before publication, and request revisions when a piece is off-brief.
- **Outreach & relationship management:** daily direct communication with clients and customers, from first contact through ongoing follow-up; over 50 queries resolved per week at BBVA with a retention focus.
- **Campaign coordination & tracking:** run content calendars, deliverables and timelines to a monthly publishing commitment; maintain organised records and trackers in CRM systems and spreadsheets.
- **Performance analysis:** track reach, engagement and conversion metrics in Meta Business Suite and spreadsheets, and use the results to decide what to repeat and what to drop (Google Data Analytics, in progress).
- **Tools:** Meta Business Suite, Instagram, Facebook, TikTok, Canva, CRM systems, Google Sheets / Excel, SQL, Claude Code.
