SUMMARY

Marketing & CRM Lead at Mar del Plata Digital (13 brands): I audited the Google Ads and Meta Ads campaigns, run an AI-assisted content pipeline and built the automation behind it in Claude Code. Segmenting the customer base and sending the first email campaign to it is what pulled me toward lifecycle marketing, and I am now taking the Klaviyo Practitioner certification to build hands-on flow and revenue-attribution skills. Background in client retention at BBVA, with clear, confident communication strengthened by a Diploma in Public Speaking and Rhetoric (UTN). BSc Marketing student (Universidad CAECE).
