Dear Power Digital hiring team,

I am writing about the Email Strategist role. Defining and driving email and SMS strategy, building automated lifecycle programs and tying every send back to measurable performance is exactly the work that draws me: at BBVA I run daily operations on the bank's CRM with a clear focus on retention and long-term customer relationships, and I want to bring that focus into end-to-end email and SMS execution for your clients.

Here is how my background maps to what this role needs:

- Retention on CRM: I manage daily CRM operations and orient over 100 customers per week through digital-channel adoption, prioritising retention and customer experience.
- Reading data honestly: I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualisation) and work comfortably in spreadsheets to read metrics like open rate, CTR and conversion and turn them into clear reports and recommendations.
- Strategic copy and calendars: across three seasons I planned content calendars, wrote conversion-oriented copy and QA'd every publish across Instagram and Facebook.
- Clear communication: I work customer-facing every day and hold a Diploma in Oral Communication and Rhetoric, directly the presentation and difficult-conversation skill this role asks for.

I will be direct about fit. This role asks for 2-5 years in email marketing and hands-on experience with Klaviyo, HubSpot or Braze, plus working HTML/CSS for email coding. My retention, CRM and copy experience so far has been in banking and social content rather than dedicated email platforms, and my knowledge of segmentation, deliverability and lifecycle flows is studied rather than shipped. What I bring is real retention and customer-data experience, disciplined copy and reporting habits, and a fast learning curve across new tools, and I would close the platform and coding gap quickly.

A data-driven growth marketing firm where email and SMS strategy is measured against real performance is exactly where I want to build, and I would welcome the chance to make the case in person.

I look forward to hearing from you.

Kind regards,

Bianca Dondero
