Marketing professional who builds AI-powered growth tools instead of proposing them: two live products shipped with the Gemini API, five AI tools for acquisition, content and competitive intelligence plus a BigQuery GA4 dashboard that tracks ecommerce funnel KPIs and writes its own daily AI executive summary. I bring that same build-first instinct to daily CRM operations at BBVA Argentina, where retention and digital-channel activation are the explicit priority. I am building my way into lifecycle and marketing-automation tooling the same way I built those tools: hands-on, through the Google Data Analytics Professional Certificate (SQL, in progress) and self-directed study of Klaviyo's flow and automation fundamentals.

Core Competencies

- **AI-powered marketing workflows (Gemini API, Claude Code):** designed and shipped 5 live tools end to end covering acquisition, content and competitive intelligence – a copy generator, campaign-plan generator, competitor auditor, SEO optimizer and buyer-persona generator – plus a BigQuery GA4 dashboard that writes its own daily AI executive summary. Deliberate prompt design built on a strict rule: never ask the model to generate or confirm what the code can already verify deterministically.
- **CRM & retention operations:** daily hands-on CRM operations at BBVA Argentina, resolving over 50 customer queries per week with retention as the explicit priority, and guiding over 100 customers per week through activation onto digital channels. Building Klaviyo flow and automation fundamentals through ongoing self-directed study.
- **Data-driven decision making (SQL, BigQuery, GA4):** completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, visualization and analysis); built the GA4 dashboard above on real BigQuery data.
- **Campaign production & performance review:** owned seasonal campaign production for multiple local brands across three consecutive summer seasons, planning and scheduling content and using engagement results to decide what to repeat and what to cut.
- **Tools:** Gemini API, Claude Code, Next.js, BigQuery, Upstash Redis, Vercel, Canva, Meta Business Suite, enterprise banking CRM, SQL.

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records and interaction histories accurate ahead of any outreach.
 - Resolve over 50 customer queries per week with retention and customer experience as the explicit priority.
 - Guide over 100 customers per week through activation onto digital channels (app and online banking).
 - Work to bank-grade accuracy standards on customer data and operations, where an error is not recoverable after the fact.
- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Owned campaign production for several local brands across three consecutive summer seasons (2023, 2024, 2025), each held to its own brand guidelines.
 - Planned, built and scheduled 15 posts per month per account on Instagram and Facebook (Meta Business Suite), never missing a deployment date.
 - Reviewed copy, creative and links before every post went out, and used engagement results to decide what to repeat and what to cut.

- **Inmobiliatica.com** **Mar del Plata, Argentina**
2023-2025
 - *Digital Marketing Assistant*
 - Supported the digital communications strategy of an online real-estate platform, coordinating deliverables with the marketing team.
 - Produced conversion-oriented content for real estate, a long-cycle, considered-purchase category, built to generate enquiries rather than just likes, and tracked which formats actually converted.

Independent Projects (Built & Shipped with Claude Code)

- **AI Marketing Agency** – live product: agencia-marketing-ia-pi.vercel.app. Five tools built on the Gemini API for acquisition, content and competitive intelligence: copy generator, campaign-plan generator, competitor auditor (fetches and compares a real competitor site), SEO optimizer (diagnoses real on-page title and meta data) and buyer-persona generator. Next.js, TypeScript, Tailwind, Upstash Redis, Vercel.
- **AI Marketing Dashboard** – live product: fase1-ga4-dashboard.vercel.app. Pulls real ecommerce data from a public BigQuery GA4 dataset and writes its own daily AI executive summary with Gemini, cached in Redis. Next.js, BigQuery, Gemini API, Redis, Recharts.

Education

- **Universidad CAECE** **Mar del Plata, Argentina**
2024-2027
 - *Bachelor's Degree in Marketing*
In progress, expected completion Dec 2027.
- **Universidad Tecnológica Nacional (UTN)** **Argentina**
2025
 - *Diploma in Oral Communication and Rhetoric*
Aug 2025 - Dec 2025.

Certifications

- **Google Data Analytics Professional Certificate** (in progress) – SQL, spreadsheets, data visualisation and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.
