Marketing operations profile built on daily, high-volume database work under strict rules and tight deadlines. At BBVA Argentina I operate the bank's CRM and internal systems every day, keeping customer records and interaction history accurate for downstream reporting while resolving over 50 queries per week to fixed operational criteria, the same discipline that campaign data preparation, audience quality control and record-keeping require. I am completing the Google Data Analytics Professional Certificate (SQL, spreadsheets, data cleaning and visualization) and studying Marketing at Universidad CAECE, and I bring three seasons of coordinating content calendars and creative review end to end for local brands, always on a fixed monthly cadence. Advanced English, comfortable aligning my schedule to a US-based, Central Time team.

Core Competencies

- **CRM operations & data integrity:** daily work inside a corporate CRM and internal systems, keeping customer records, contact data and interaction history accurate and audit-ready for downstream teams.
- **Data & audience preparation (SQL, in training):** data cleaning, deduplication and segmentation practiced through the Google Data Analytics curriculum, applied at work to organize customer information by criteria.
- **Advanced Excel & reporting:** Google Sheets and Excel (pivot tables, lookups, filtering, formulas) used to track caseloads, follow-ups and weekly performance.
- **End-to-end campaign coordination:** planned, reviewed and published content calendars for local brands across three consecutive seasons on a fixed monthly cadence (15 posts/month).
- **Creative review & QA discipline:** checked visual content for brand consistency before publishing, and applied the same accuracy standard to 50+ customer queries logged per week at BBVA.
- **Cross-functional communication:** Diploma in Oral Communication and Rhetoric (UTN); advanced English for working directly with US-based Account Management, Production and Creative teams.
- **Tools:** CRM and internal banking systems, Google Sheets / Excel, SQL (in progress), Meta Business Suite, Canva, Claude Code.

Professional Experience

- **BBVA Argentina** **Mar del Plata, Argentina**
Gestor Express (Customer Adviser) *2026-Present*
 - Run daily operations on the bank's CRM and internal systems, keeping customer records, contact details and interaction history accurate and correctly classified under strict compliance rules.
 - Resolve over 50 customer queries per week, logging and documenting each case so records stay complete, traceable and reliable for reporting and hand-off to the next team member.
 - Guide the migration of customers to the mobile app and online banking: over 100 customers oriented per week on digital-channel adoption, on a recurring weekly rhythm.
 - Prioritize retention and customer experience within a highly structured, process-driven environment with fixed deadlines.
- **Mar del Plata Digital** **Mar del Plata, Argentina**
Community Manager *2023-2025*
 - Coordinated content calendars end to end (planning, creative review, scheduling, publishing) for local brand accounts on Instagram and Facebook (Meta Business Suite).
 - Delivered 15 posts per month on a fixed monthly cadence across three consecutive summer seasons (2023-2025).
 - Produced visual content in Canva and reviewed each piece for brand consistency before it went live.

- **Inmobiliatica.com** **Mar del Plata, Argentina**
2023-2025
 - *Digital Marketing Assistant*
 - Supported the marketing team of an online real-estate platform with content and digital communications.
 - Wrote and coordinated conversion-oriented posts designed to generate qualified enquiries rather than passive reach.

Education

- **Universidad CAECE** **Mar del Plata, Argentina**
2024-2027
 - *Bachelor's Degree in Marketing*
In progress, expected completion Dec 2027.
- **Universidad Tecnológica Nacional (UTN)** **Argentina**
Aug 2025 - Dec 2025
 - *Diploma in Oral Communication and Rhetoric*
Completed.

Certifications

- **Google Data Analytics Professional Certificate** (in progress) – SQL, spreadsheets, data cleaning, visualization and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.
