Marketing Associate candidate who treats tech curiosity as a track record, not a claim: I have built and shipped three web products end to end with Claude Code, in Next.js, Astro, TypeScript and Tailwind, two of them integrating the Gemini API and one running real BigQuery data, all live on Vercel. Since July 2026 I have also owned go-to-market for Pulpo Gestión, a new AI agent for WhatsApp and email at Mar del Plata Digital: positioning, pricing, landing page and paid campaign, the GTM support this role asks for by name. I balance that with daily CRM and retention work at BBVA Argentina and a Licenciatura en Marketing in progress. I want to translate complex technical products into stories that reach the right audience, which is the job description for an open-source company.

Core Competencies

- **GTM support**: I own go-to-market for Pulpo Gestión end to end at Mar del Plata Digital: positioning, pricing, landing page and the paid campaign that drives it, plus the campaign-plan generator inside my own AI Marketing Agency platform.
- **Tech curiosity, demonstrated**: three production web apps built with Claude Code (agentic development), each decided, built and shipped by me with no brief, manager or deadline. Next.js, Astro, TypeScript, Tailwind CSS, the Gemini API, BigQuery, Upstash Redis, deployed on Vercel.
- **Analytical thinking**: SQL at working level (module 5 of the Google Data Analytics Professional Certificate, BigQuery and Google Standard SQL), applied in a dashboard I built over a real public BigQuery GA4 dataset, plus the ERP segmentation work below.
- **Storytelling and content**: Vidriera, my marketing news portal, sets an editorial line across 6 categories; at Mar del Plata Digital I run AI-assisted content operations across 13 brands, and across three summer seasons I wrote conversion-oriented copy rather than reach-only posts.
- **Cross-functional collaboration**: daily coordination between marketing, pricing and a technical founder at Mar del Plata Digital; daily customer-facing work inside a large, regulated organisation at BBVA.
- **Campaign coordination and paid media**: audited and rebuilt Google Ads and Meta campaigns with conversions measured in GA4, and ran the paid campaign behind the Pulpo Gestión waitlist.
- **Foundational marketing knowledge, via personal projects**: the posting names a degree, internships or personal projects as valid paths to this foundation. Mine comes from the three shipped products above, a Licenciatura en Marketing in progress at Universidad CAECE, and the Google Data Analytics Professional Certificate.
- **Business technology and tools**: Claude Code, Next.js, Astro, TypeScript, Tailwind CSS, Gemini API, BigQuery, Upstash Redis, Vercel, SQL, Google Ads, Meta Ads, GA4, Meta Business Suite, Canva, Google Sheets / Excel.

Professional Experience

- **Mar del Plata Digital** — **Mar del Plata, Argentina**
  Marketing & CRM Lead (part-time) — *Jul 2026-Present*
  - Own go-to-market for Pulpo Gestión, a new AI agent for WhatsApp and email: positioning, pricing, landing page and paid campaign, built and run without a brief or a manager.
  - Run commercial marketing across 13 brands: 4 services (websites and AI search visibility, the Inmobiliática real-estate CRM, the Reservas.travel hotel PMS, and Pulpo Gestión) and 9 tourism portals.
  - Segmented the ERP customer base into 6 segments (1,500+ active and lapsed contacts), each with its own offer and automated email and WhatsApp sequence.
  - Audited and rebuilt the Google Ads and Meta campaigns, with conversions measured in GA4.
  - Coordinate the content operation across all 13 brands: 30 posts a week, AI-assisted generation and centralised scheduling.

- **BBVA Argentina** — **Mar del Plata, Argentina**
  Gestor Express (Customer Adviser) — *2026-Present*
  - In-branch client support and guidance, focused on the adoption of digital channels.
  - Guide clients through the migration to the mobile app and online banking: 100+ clients a week.
  - Day-to-day operations on the bank's CRM and internal systems.
  - Resolve 50+ enquiries a week, prioritising retention and customer experience.
- **Mar del Plata Digital** — **Mar del Plata, Argentina**
  Community Manager and Digital Marketing Assistant (seasonal) — *Summers 2023-2025*
  - Social media management across three consecutive summer seasons (2023, 2024 and 2025), rehired for each one.
  - Planned and published 15 posts a month on Instagram and Facebook (Meta Business Suite), with her own visual content in Canva.
  - Content marketing for Inmobiliática, the group's real-estate platform, written to generate enquiries rather than likes.

Independent Projects

- **AI Marketing Agency** (Claude Code) – production platform with 5 live tools on the Gemini API: copy generator, campaign-plan generator, competitor auditor, SEO optimizer and buyer-persona generator. Built on the rule that no verifiable fact is generated: domain, title and meta description are computed server-side, never asked of the model. Next.js, TypeScript, Tailwind, Upstash Redis, Vercel. agencia-marketing-ia-pi.vercel.app
- **Marketing Analytics Dashboard** (Claude Code) – ecommerce analytics dashboard over a real public BigQuery (GA4) dataset, with a daily executive summary generated by AI and cached in Redis. Next.js, BigQuery, Gemini API, Redis, Recharts. fase1-ga4-dashboard.vercel.app
- **Vidriera** (Claude Code) – marketing news portal where I set the editorial line across 6 categories, turning industry stories into content a non-specialist can follow. Astro, Tailwind CSS, TypeScript. vidriera-blush.vercel.app

Education

- **Universidad CAECE** — **Mar del Plata, Argentina**
  Licenciatura en Marketing (BSc Marketing) — *2024-2027*
  In progress, expected graduation December 2027.
- **Universidad Tecnológica Nacional (UTN)** — **Argentina**
  Diploma in Oral Communication and Rhetoric — *Aug 2025 - Dec 2025*
  Oral communication, rhetoric and public speaking.

Certifications

- **Google Data Analytics Professional Certificate** (in progress, module 5) – SQL and BigQuery, spreadsheets, data visualisation and analysis.
- **Foundations: Data, Data, Everywhere** (Google) – completed.

Languages

- Spanish (native), English (advanced).
